SUMMARY

I am a person who loves providing solutions to hard problems when making software, especially in back-end development. I love to learn new things, work well under pressure, consistently meet deadlines and targets while delivering high-quality work.

EDUCATION

• **FPT University,** BSc. In Software Engineering

    ○ Major GPA: 8.6
    ○ Courses taken: Object Oriented Programming, Data Structure and Algorithms, Web Design, Software Engineering, Operating Systems, Computer Networks, Database Systems.

PROFESSIONAL EXPERIENCE

Project: Articloke – A platform for article readers (4 members)

• **Technology:** Servlet, Java Server Page, Bootstrap4, SQL Server 2019

• **Responsibilities:**

    I was the Scrum Master, Technical Leader and also Back-end Developer of team.

    ○ I am the person who arranged tasks to team members that are suitable to their capabilities.

    ○ I drew the design pattern, constructed the core database, and navigated the team to a coding style.

    ○ I was also a person who support my team in several aspects, especially in APIs and SQL Queries.
